

Proposal: Kentucky Quality Collaborative Symposium

Vision: Bringing the people who get care, give care and pay for care to work together toward common, fundamental objectives to improve the health of all Kentuckians.

Planning Committee:

Jodi Mitchell, Kentucky Voices for Health
Susan Zepeda, Foundation for a Healthy Kentucky
Tom James, Humana
Elizabeth Cobb, Kentucky Hospital Association
Rob Edwards, UK Healthcare
Marty White, KY Medical Association
Richard Heine, Friedell Committee
Duane Spurlock/Tammy Geltmaker, Health Care Excel
(Diane Stollenwerk, National Quality Forum)

Quality Symposium – 2011(Proposed Dates: Aug 24 or Aug 25, Capitol Plaza Hotel, Frankfort)

9:00 AM – 9:05 AM	Welcome and Vision	Jodi Mitchell Kentucky Voices for Health
9:05 AM – 9:30 AM	Importance of Quality For Kentucky’s Health Care	Secretary Janie Miller Cabinet for Health and Family Services
9:30 AM – 9:45 AM	Quality Intersection with Public Health	Dr. William Hacker/ Dr. Stephen Davis Department of Public Health
9:45 AM – 10:00 AM	Coffee Break and Networking	
10:00 AM – 12:00 PM	Quality Arena In Kentucky (each panelist to speak for 15 min followed by Q&A) - Address reimbursement/ Payment reforms	Panel Moderator: Richard Heine, Friedell Committee Kentucky Voices for Health (Consumers) Humana (Insurance Plan) Health Enterprise Network (Industry) Kentucky Hospital Association (Provider) Kentucky Medical Association (Provider)
12:00 PM – 1:00 PM	Luncheon Keynote: National Quality Agenda	Diane Stollenwerk, Vice President of Community Alliances, National Quality Forum
1:00 PM – 1:45 PM	Innovation and Promising Strategies in Quality	Moderated by Health Care Excel Perhaps include Health Improvement Collaborative of Greater Cincinnati (AF4Q) ACO Projects: Humana-Norton-UK St. Joseph Hospital-Jewish Hospital-UoL
2:00 PM – 3:30 PM	Breakouts – KY Implementation of Quality Agenda	

Facilitator for each session to review each priority area. Participants to identify a project(s) that is or can be undertaken in the Commonwealth to improve quality associated with priority area. Identify stakeholders involved and identify roles and actions of each stakeholder. If possible, identify timeline for next steps.

<p>#1 Safer Care</p>	<p>Goal: Eliminate preventable health care-acquired conditions</p> <p>Opportunities for success: Eliminate hospital-acquired infections Reduce the number of serious adverse medication events</p> <p>Illustrative measures: standardized infection ratio for central line-associated blood stream infection as reported by CDC's National Healthcare Safety Network incidence of serious adverse medication events</p>
<p>#2 Effective Care Coordination</p>	<p>Goal: Create a delivery system that is less fragmented and more coordinated, where handoffs are clear, and patients and clinicians have the information they need to optimize the patient-clinician partnership</p> <p>Opportunities for success: Reduce preventable hospital admissions and readmissions Prevent and manage chronic illness and disability Ensure secure information exchange to facilitate efficient care delivery</p> <p>Illustrative measures: All-cause readmissions within 30 days of discharge Percentage of providers who provide a summary record of care for transitions and referrals</p>
<p>#3 Person- and Family-Centered Care</p>	<p>Goal: Build a system that has the capacity to capture and act on patient-reported information, including preferences, desired outcomes, and experiences with health care</p> <p>Opportunities for success: Integrate patient feedback on preferences, functional outcomes, and experiences of care into all care settings and care delivery Increase use of EHRs that capture the voice of the patient by integrating patient-generated data in EHRs Routinely measure patient engagement and self-management, shared decision-making, and patient-reported outcomes</p> <p>Illustrative measures: Percentage of patients asked for feedback</p>
<p>#4 Prevention and Treatment of Leading Causes of Mortality</p>	<p>Goal: Prevent and reduce the harm caused by cardiovascular disease</p> <p>Opportunities for success: Increase blood pressure control in adults Reduce high cholesterol levels in adults Increase the use of aspirin to prevent cardiovascular disease Decrease smoking among adults and adolescents</p> <p>Illustrative measures: Percentage of patients ages 18 years and older with ischemic vascular disease whose most recent blood pressure during the measurement year is <140/90 mm Hg Percentage of patients with ischemic vascular disease whose most recent low-density cholesterol is <100 Percentage of patients with ischemic vascular disease who have documentation of use of aspirin or other antithrombotic during the 12-month measurement period Percentage of patients who received evidence-based smoking cessation services (e.g., medications)</p>

<p>#5 Supporting Better Health in Communities</p>	<p>Goal: Support every U.S. community as it pursues its local health priorities</p> <p>Opportunities for success: Increase the provision of clinical preventive services for children and adults Increase the adoption of evidence-based interventions to improve health</p> <p>Illustrative measures: Percentage of children and adults screened for depression and receiving a documented follow-up plan Percentage of adults screened for risky alcohol use and if positive, received brief counseling Percentage of children and adults who use the oral health care system each year Proportion of U.S. population served by community water systems with optimally fluoridated water</p>
<p>#6 Making Care More Affordable</p>	<p>Goal: Identify and apply measures that can serve as effective indicators of progress in reducing costs</p> <p>Opportunities for success: Build cost and resource use measurement into payment reforms Establish common measures to assess the cost impacts of new programs and payment systems Reduce amount of health care spending that goes to administrative burden Make costs and quality more transparent to consumers</p> <p>Illustrative measures: To be developed</p>

3:30 PM – 4:00 PM

Conclusion and Next Steps
