About Us

We're a coalition of concerned Kentuckians who believe that the best health care solutions are found when everyone works together to build them. Right now, families and businesses in every county are facing rising costs, and too many of us go without needed health care. Healthy families create healthy economies. And a healthy Kentucky economy is something we all want. So we're working step by step to build a healthier Kentucky for everyone. Our priorities include: Assuring that all Kentuckians have access to high quality, affordable health care; Making prevention a priority for Kentucky's health policies and programs; Improving the efficiency and effectiveness of health care for Kentuckians; and, Improving the health of Kentucky's children.
